

Policy for Spreader Testing Farmer Equipment and Charges

AFSA National to receive \$220.00 including GST for each machine tested. This will cover the maintenance and continued development of the Accu-Spread accreditation programme, as well as our intellectual property rights. Accu-Spread Testing Officer's daily fee plus State Branch Fee of 20% will also apply in this situation.

It is not an accreditation it is only a test. The AFSA would provide a sheet with the graphs with a note at the bottom saying it is not a Fertcare Accu-Spread Accreditation but only a test. A Certificate of attainment will be presented to the farmer.
